# MinnesotaCare Premium Table

---

July 1, 2010 through June 30, 2011

- These tables are intended to approximate the required premium as calculated by the premium calculation program. The premium calculation performed by the system is the official calculation.
- These tables do not adequately deal with cases which include children who have a minimum monthly premium of \$4.
  - Use the tables to calculate the adult premium for these cases.
  - For example, for a three-person family which includes one adult and two children who qualify for \$4 premiums:
    1. Use the table to calculate the adult premium.
    2. Add \$8 (a \$4 premium for each child).

\* These tables do not adequately deal with cases which include children with a \$4 premium. Use the tables to calculate the adult premium required in these cases. For example, to approximate the premium for a 3-person family (1 adult and 2 children with a \$4 premium), calculate the adult premium and add the \$4 premium per child.

Some current enrollees, whose income exceeds the limit, may continue coverage for a period of time by paying the maximum premium:		\$ 411	\$ 822	\$ 1,233

\* These tables do not adequately deal with cases which include children with a \$4 premium. Use the tables to calculate the adult premium required in these cases. For example, to approximate the premium for a 3-person family (1 adult and 2 children with a \$4 premium), calculate the adult premium and add the \$4 premium per child.
