

## MinnesotaCare Premium Table

July 2006 through June 2007

Minnesota Department of **Human Services**

These tables are intended to approximate the required premium as calculated by the premium calculation program. The premium calculation performed by the system is the official calculation.

These tables do not adequately deal with cases which include children who have a minimum monthly premium of \$4.

Use the tables to calculate the adult premium for these cases.

For example, for a three-person family which includes one adult and two children who qualify for \$4 premiums:

1. Use the table to calculate the adult premium.
2. Add \$8 (a \$4 premium for each child).

## MinnesotaCare Premium Table

Family Size 1 ~ 7/1/06 - 6/30/07

These tables are intended to approximate the required premium as calculated by the premium calculation program. The premium calculation performed by the system is the official calculation.
