MinnesotaCare Premium Table

July 1, 2012 through June 30, 2013

- These tables are intended to approximate the required premium as calculated by the premium calculation program. The premium calculation performed by the system is the official calculation.
- These tables do not adequately deal with cases which include children who have a minimum monthly premium of \$4.
 - Use the tables to calculate the adult premium for these cases.
 - For example, for a three-person family which includes one adult and two children who qualify for \$4 premiums:
 1. Use the table to calculate the adult premium.
 2. Add \$8 (a \$4 premium for each child).

* These tables do not adequately deal with cases which include children with a \$4 premium. Use the tables to calculate the adult premium required in these cases. For example, to approximate the premium for a 3-person family (1 adult and 2 children with a \$4 premium), calculate the adult premium and add the \$4 premium per child.

* These tables do not adequately deal with cases which include children with a \$4 premium. Use the tables to calculate the adult premium required in these cases. For example, to approximate the premium for a 3-person family (1 adult and 2 children with a \$4 premium), calculate the adult premium and add the \$4 premium per child.
